

Honoring the “behind the scenes” people who make the industry work

ECTC Industry Honorees

Kevin Spittle

Profile Products LLC

Vice President Research and Development

Kevin Spittle is Profile Products LLC backbone in innovation and research and development. Kevin has been a critical contributor to the erosion control industry for many years. He has focused much of his efforts on the development of Profile’s product line.

Kevin joined Profile in 1999 following the Terra Mulch LLC acquisition where he was co-owner. Mr. Spittle’s responsibilities include managing new product development, quality assurance for the Conover, NC, Limestone, TN, and Rockford, WA manufacturing operations, bill of materials, product formulas, portfolio modifications and cost saving projects. Mr. Spittle currently has 27 patents assigned to Profile and has authored and co-authored numerous industry papers and presented at the International Erosion Control Association.
